people you know
are sick**

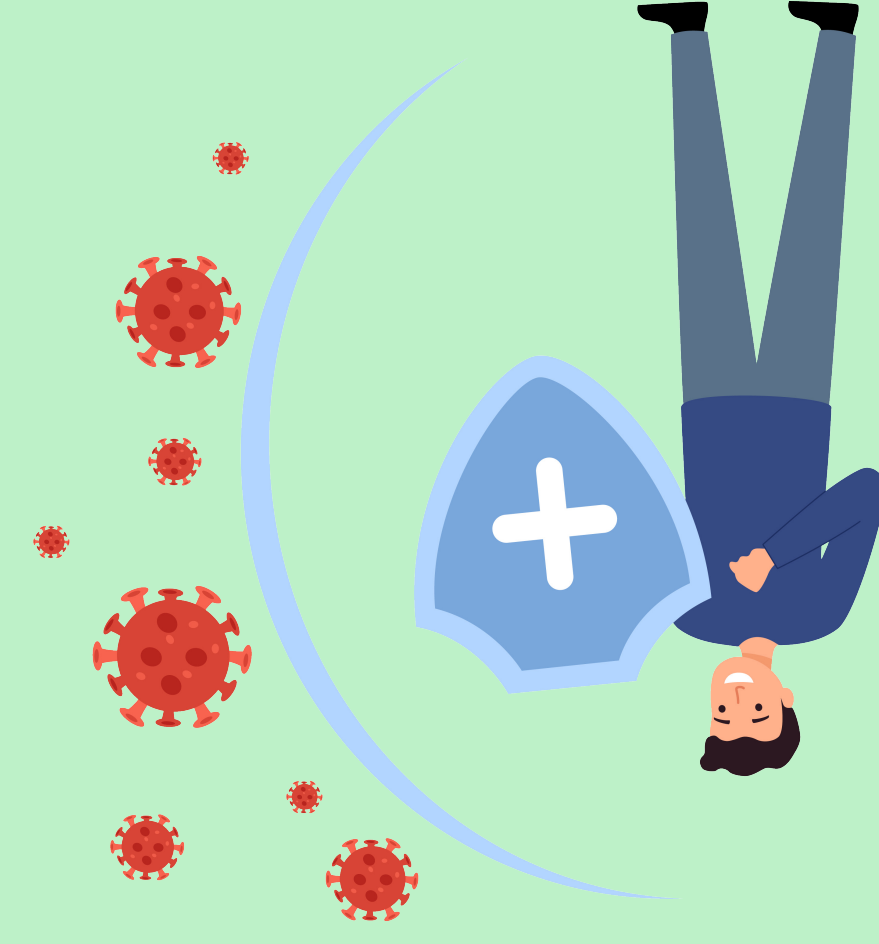

How to protect yourself?

Wash your hands with soap and water

Get your vaccines

Stay AWAY from people you know are sick

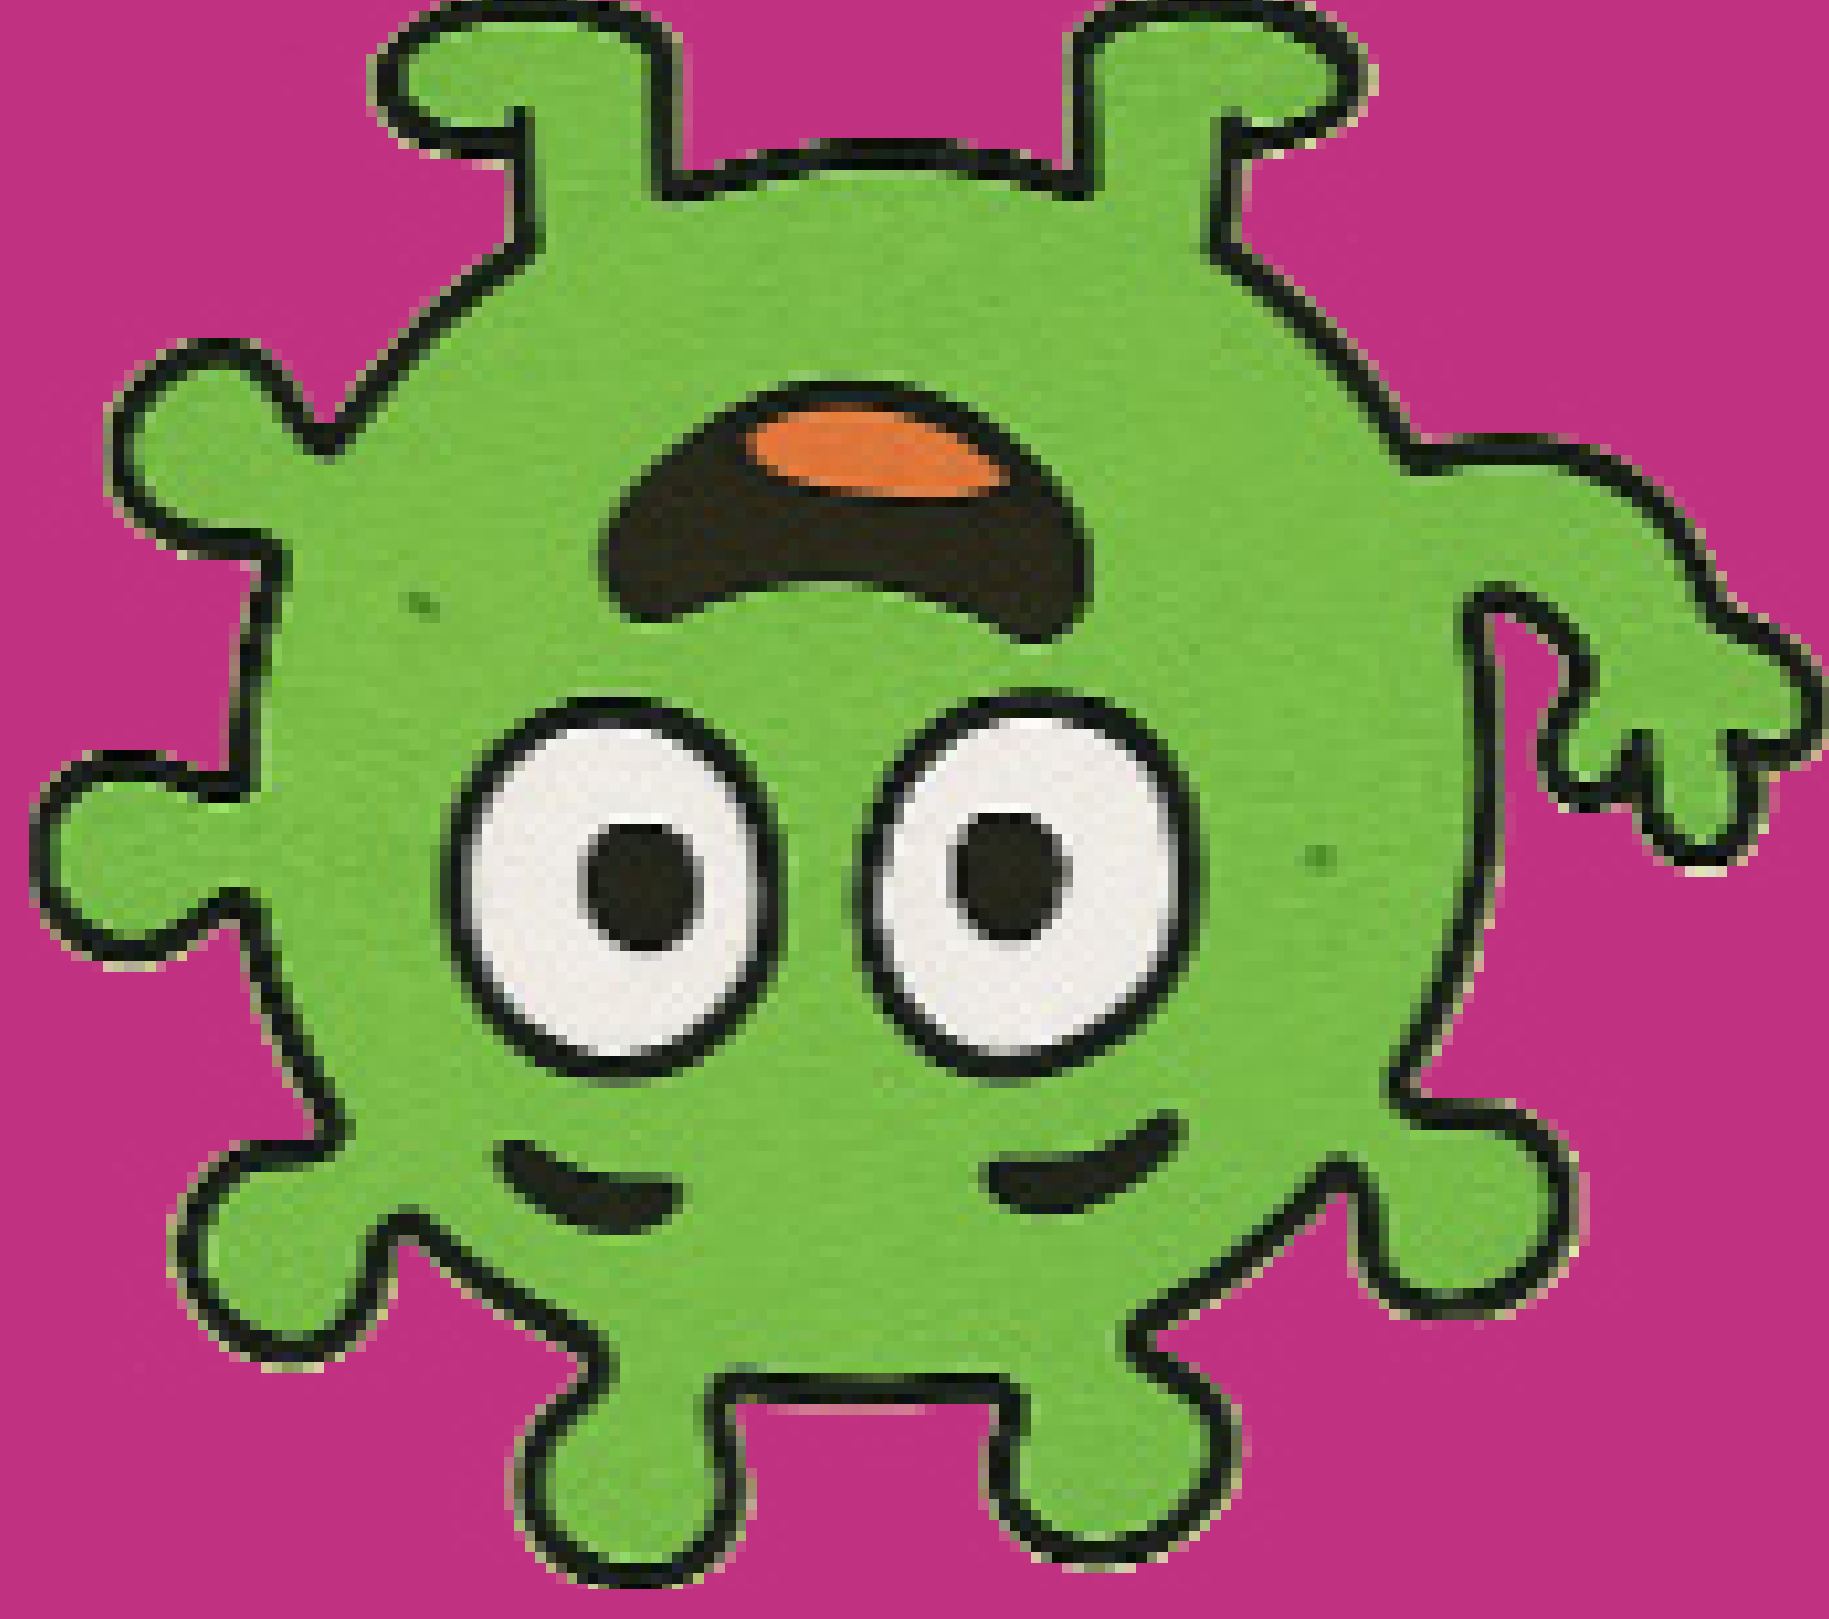

Cover your Coughs and Sneezes

Hello!

I'm Gummy, the Germ!

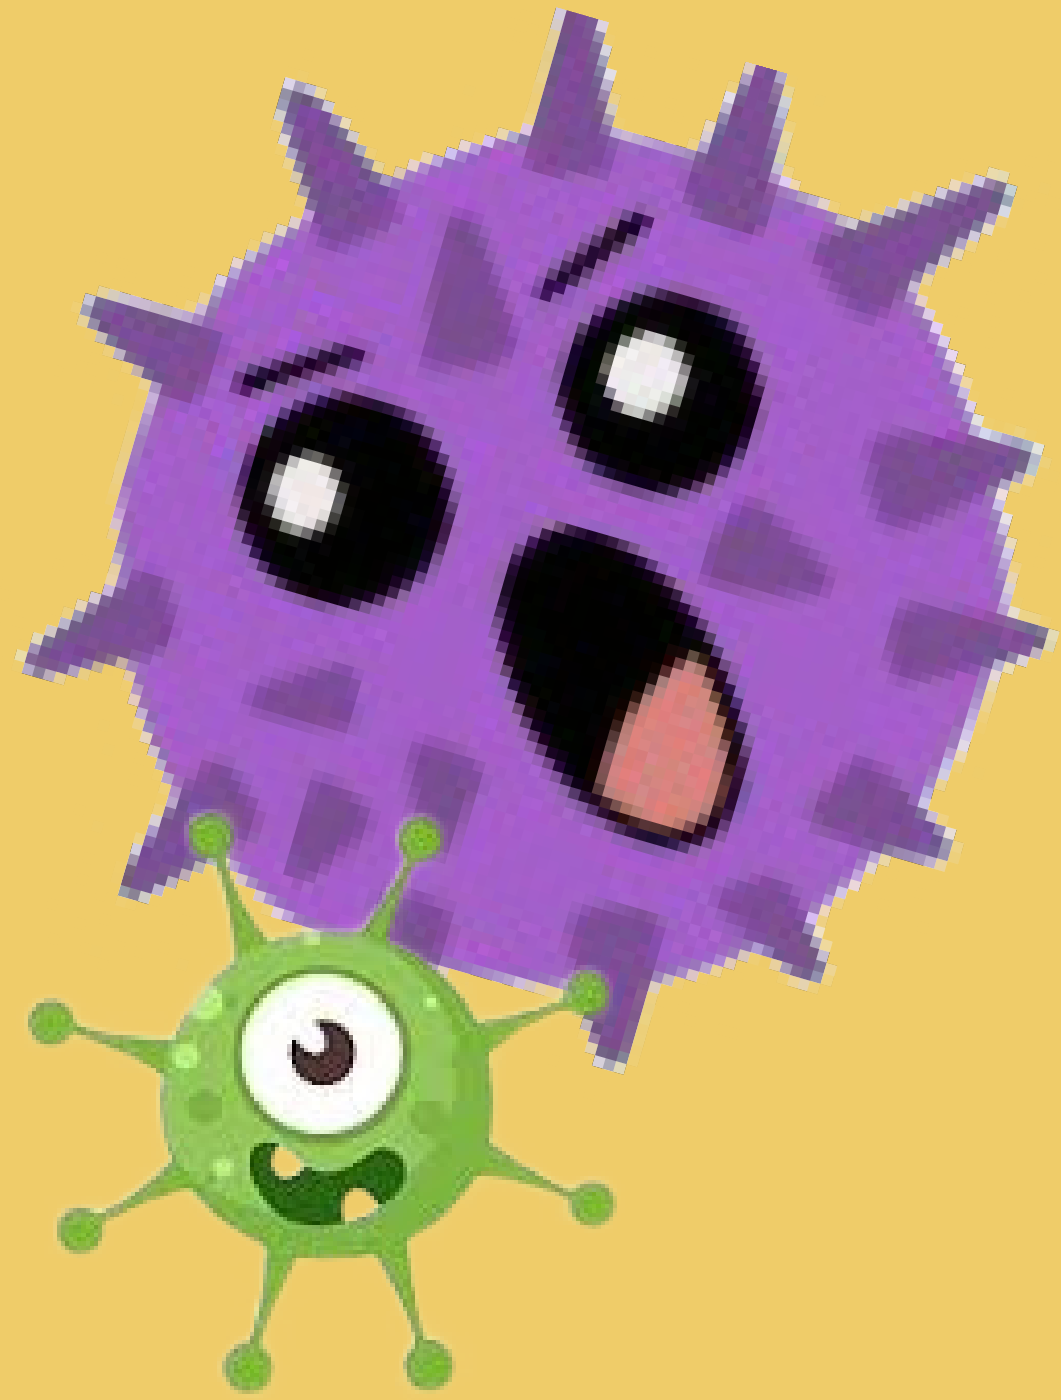

I'm everywhere!
Want to know how to keep me from making you sick?

HEALTH
CONFIDENZA

What are germs?

**We are
microorganisms**

**We are living things
that are small. You
can't see us, but we
live on hands, food,
toys, and more!**

Germs spread....

- When you don't wash your hands
- When you sneeze or cough without covering your mouth
- When you touch your face after touching dirty things like your phone and Ipad
- They can spread in many ways

Oh wow!

 Discover the power
for information and
resources around you.

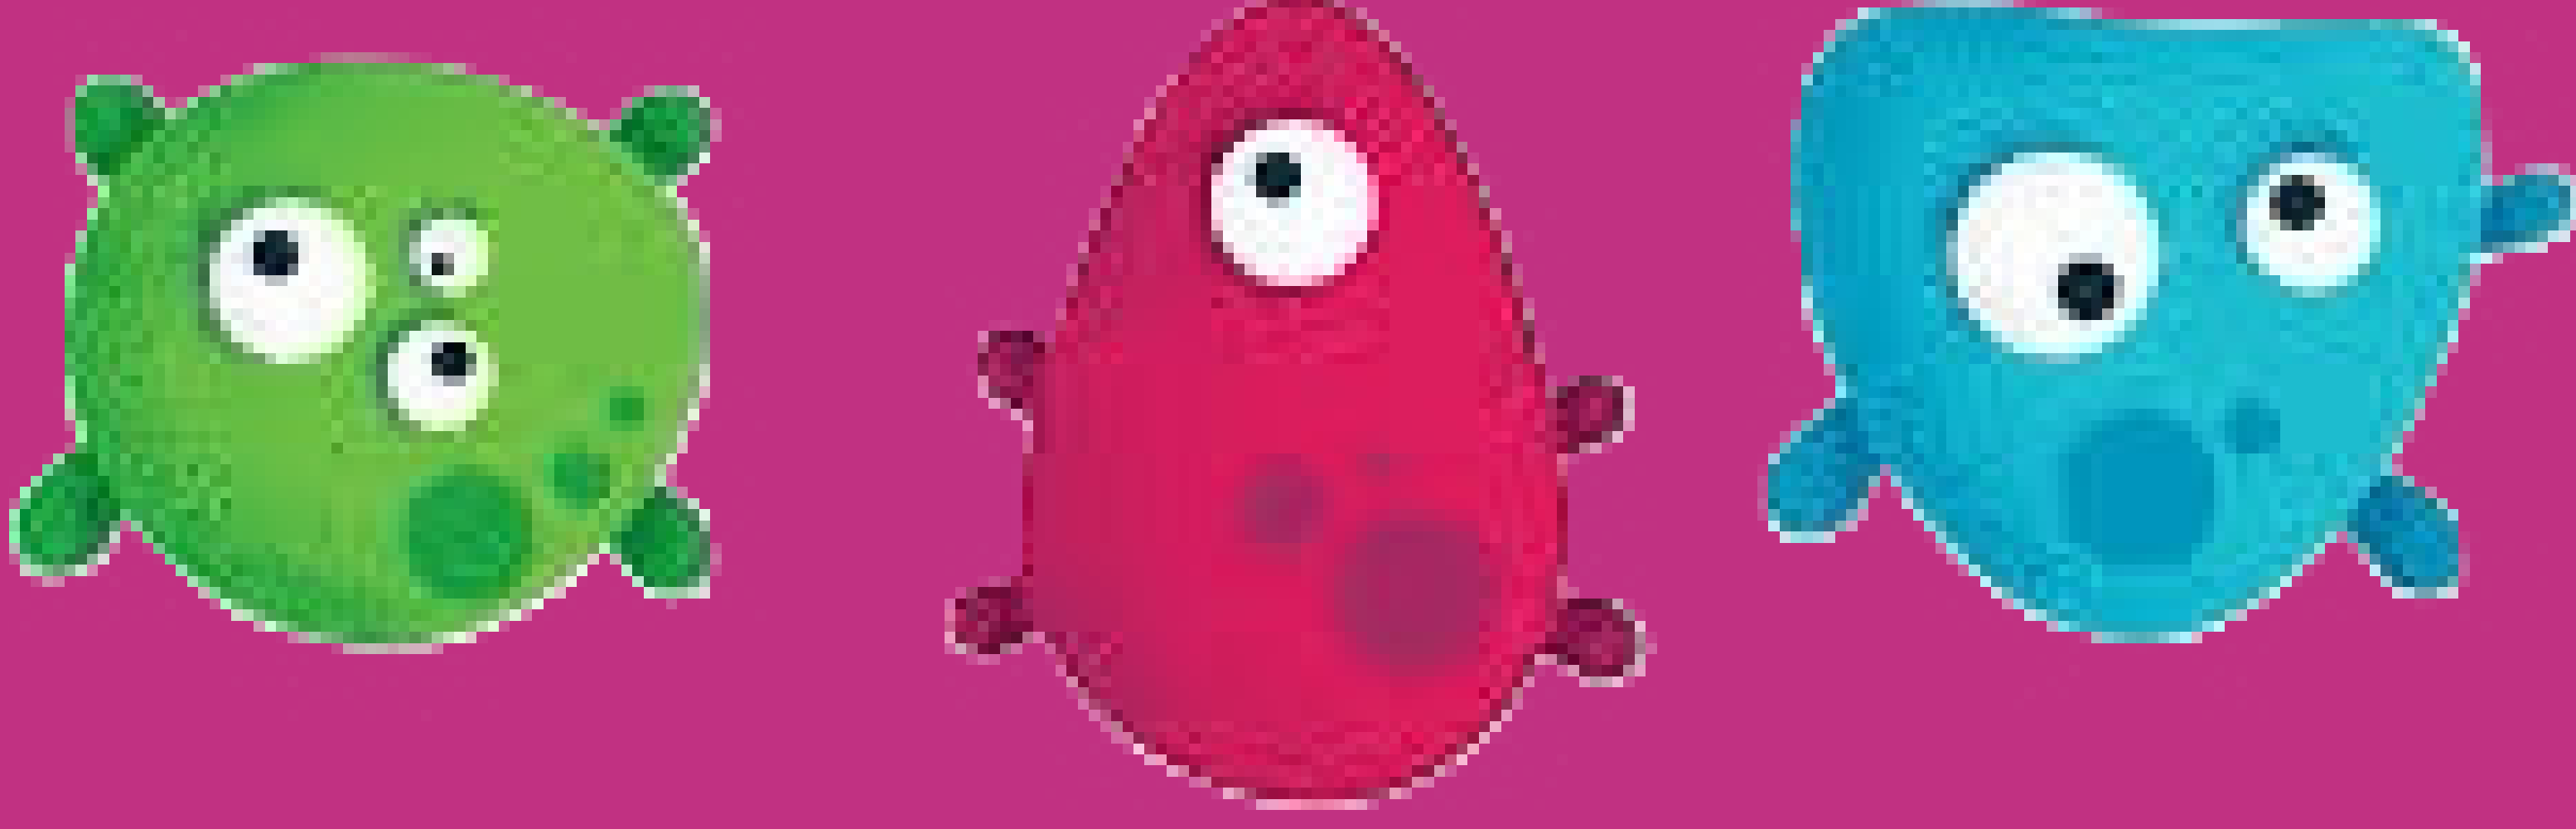

Now you know the
secrets to **STOPPING**
ME!

Join the Germ-Free
Generation and
keep yourself and
others healthy.
